

# Drinking Water Taps

Enjoy fresh, filtered water at home or in the office with this Aquano drinking tap. Made from durable, lead-free 304 stainless steel, it's built to last and safe for your family. Available in brushed stainless, black, gunmetal, brushed gold, and bronze, its slim, modern design looks great in any kitchen. The 125mm reach and 360° spout rotation make it perfect for all uses. Pair this tap with any Aquano under bench filter system (sold separately or as a complete kit) for even better water quality. The PVD electro colouring coating provides a corrosion-resistant, eco-friendly finish that keeps it looking new for longer.

**Reliable, stylish, and easy to use, this tap is a great choice for any home or business.**
